

Shelf Tether™

The only security product for packaged merchandise when EAS is not present.

The new Shelf Tether™ is the only shelf security solution using InVue's exclusive IR2 Key security. No other solution is specifically designed to protect merchandise displayed on a shelf. You no longer have to develop your own solutions based on the resources available like steel cables and zip ties. Nor do you have to rely on pick ticket programs or limiting the inventory on display. And as part of InVue's exclusive IR Ecosystem™ you have the advantage of the only storewide single key security system that protects high theft merchandise.

Shelf Tether™

Features and benefits

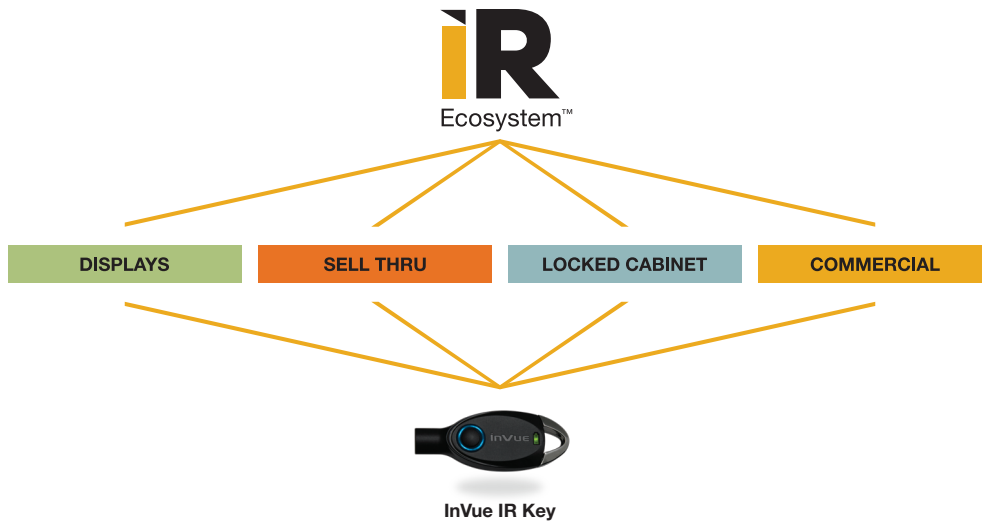

- 1 Only solution designed for high value, shelved products
- 2 Cable recoils so customers can easily interact with merchandise while you maintain a clean shelf
- 3 Secured by the IR StopLok™ providing fast access to merchandise and superior protection
- 4 Alarming version alarms if the cable is cut or the box is moved off its fixture
- 5 Available in non-alarming version (not pictured)

Shelf Tether™

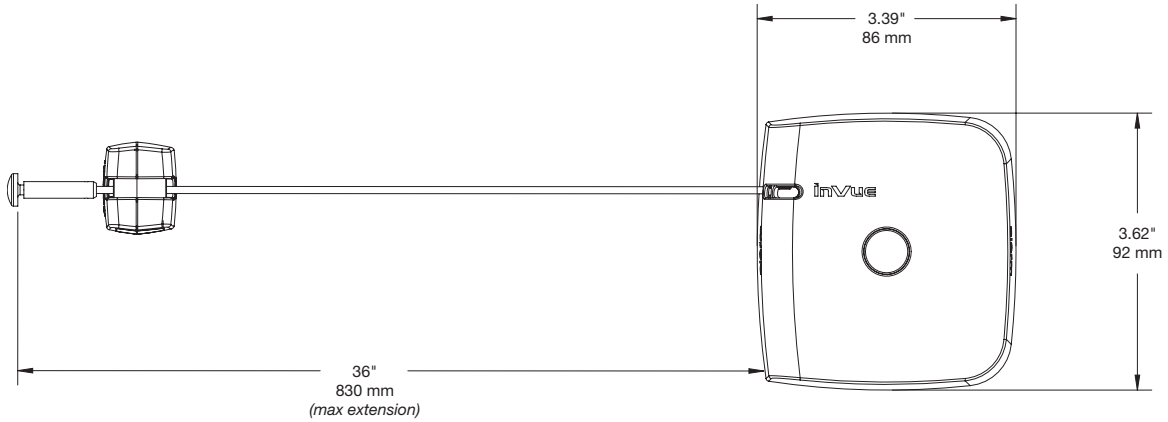

A storewide single key security system for all your high theft merchandise.

One key and four categories of tough security products provide you multiple, store-wide security solutions. The IR Ecosystem™ allows you to safely open display, and access, your high theft merchandise and ensures that store associates always have the right key at the right time.
